DRIVING DIRECTIONS TO THE RANCH

From Missoula: Go 50 miles North on Hwy 93 to Ronan. At 2nd stop light in Ronan, turn left on Round Butte Road (State Highway 211) and go 8.5 miles. Turn right on Valley View Rd. (paved) and go 4.3 miles north to Valley View Charolais Ranch sign and driveway on the left.

From Polson: Go 7 blocks South on Main St. to 7th Ave. Turn right (Southwest) on 7th Ave. which is State Highway 358). Go 5½ miles (1/2 mile past mile-marker 5). Turn right on Eli Gap Rd. and go 4 miles west to a 4-way stop at the Valley View School. Turn left on Valley View Road and go 2 miles south to the Valley View Charolais Ranch sign and driveway on the right.

Signs will mark both routes

Bull Sale is also on www.dvauction.com

Please register at least 24 Hours prior to Sale if buying online

VALLEY VIEW CHAROLAIS RANCH

HISTORY OF BREEDING PROGRAM

Valley View Charolais is proud to present our two-year-old bulls at this **57th Annual Bull Sale**. We offer proven genetics that optimize your cows' production and we hope to build long-term relationships and partnerships with our satisfied customers. Your satisfaction is guaranteed with every purchase—the best guarantee in the industry.

Our cowherd, established in 1962, originated from the Michaelis Ranch, the first U.S. breeders of Charolais. We have maintained strong bloodlines with proven performance across generations. Our sires excel in the essential traits of ease of calving, growth, and carcass quality, supported by data from the Canadian Conception-to-Consumer Test, AICA Sire Evaluation Test and in-depth Genomic testing. We have performance records for every calf born on this ranch since 1962, ensuring bulls with excellent calving ease, performance, fertility, and longevity.

Our focus on “ease of calving” means your bulls will work well on range conditions, producing live births and high-performing calves. Our bulls excel in feedlot gain, feed efficiency, and carcass quality. Crossbreeding with Charolais genetics adds hybrid vigor and extra pounds on your calves.

You can expect our mature two-year-old bulls will breed more cows earlier in the season, and boost weaning weights by 50-plus pounds. Their feedlot gains are faster and more efficient, with superior carcasses. Our bulls lead the Charolais breed in these traits, with bulls that rank in the top 1% for Charolais Total Sire Index (TSI) and marbling.

Charolais genetics have been shown to produce the leanest, highest-yielding carcasses, and our bulls sired Montana Steer of Merit Carcass Champions over 30 years ago. The demand for Charolais-sired calves remains strong nationwide.

Through 50-plus years of focused genetic selection, we have eliminated calving problems, ensured long-lasting sound bulls, and produced cows with excellent mothering abilities and dispositions. Our bloodlines form the foundation for other top Charolais herds across the U.S. and Internationally.

Our breeding program is based on proven genetics, not big feed rations. The bulls in this sale represent the best of our 2023 calf crop, carefully selected for fertility, performance, conformation, pedigree, soundness and disposition. Each bull is semen-tested and guaranteed to perform.

Our bulls are raised under natural range conditions nursing their mothers with no creep feeding. After weaning, the bulls are fed alfalfa-mix hay for growing during winter, then they mature on pasture under practical range conditions. They are never pushed on feed but are simply conditioned to ensure optimum breeding condition and long-term performance for you. Due to our practical manner of growing bulls, it is rare for one to go unsound.

We have great confidence in these two-year-old bulls and are certain we have eliminated any bull with even very minor problems during our two years of selection and culling. We guarantee them to please you in every way so you will return for more bulls in future years. We cordially invite you to visit any time to see our ongoing genetic progress. We will always have something new and progressive to show you, as well as a warm welcome. We are confident in the quality of these bulls and guarantee your satisfaction.

We look forward to seeing you soon!

Buddy Westphal and Family

Valley View Charolais Ranch

A Guide to Reading Our Catalog

Bulls sell in catalog order by lot number, with each tagged accordingly, with the lot number in one ear and his personal herd number (tag) in the other ear. They are tagged, tattooed and weighed at birth, with the tattoo in the left ear corresponding to his calf tag number. Bulls are weighed and thoroughly evaluated throughout the next two years.

Birth Weight and Calving Ease

Birth weight is the best predictor of calving ease, but is influenced by dam age, genetics and nutrition. A heifer bred to the same bull for her first, second and third calves may increase the birth weight as much as five pounds per year of age, and a cow of 10 years and older may taper off in birth weight of her calf. A cow born with a high birth weight herself often passes this trait to her calves, regardless of sire. In this catalog, dam's age is provided in the pedigree to help evaluate birth weights of bulls in this sale.

If (Hfr) is noted under the dam's name, she is a 2-year-old first-calf heifer and is bred to an easier-calving sire. If (3) is under the dam, she too is bred to an easier-calving bull and her age also affects the birth weight. If you are selecting bulls to use on heifers we suggest you select only from the *Heifer Bull* lots. For extra easy calving of small or young cows, select from the (Hfr) and (3) dams with low birth weights.

For over 50 years we have selected bulls with shorter gestations (highly heritable), thereby allowing the calf to be born on time (in 283 days or less), so it is not growing too large inside his mother and causing calving problems. A calf will gain one pound or more per day the last 30 days of gestation, so not going overdue is important.

Nutrition can also affect birth weight by 5 to 10 pounds. An easy winter can be followed by larger calves if the cows had it too easy and got too fat. A tough winter in which extra supplement has been pushed to the mothers, or if they stood around in confinement with no exercise, can also increase birth weights. Therefore, birth weights should not necessarily be compared from year to year within a herd, nor be compared to another herd with different cow size and age, or climate and management.

Weaning Weight and Growth

Weaning weights are adjusted to 205 days to ensure fairness for extra days of age, so that an early-born calf does not have extra days of growth advantage over a later calf. Since most of these bulls are born within a short four-week period, adjustments are minimal. Selecting bulls that breed early will increase profitability. A calf born 21 days late weans nearly 60 pounds less at weaning, costing big dollars. For a cow-calf operation, the maximum weaning weight put across the scales from the number of cows exposed at breeding time is the key formula for your success.

18-Month Index and Development

The 18-mo. index listed in our catalog indicates the weight of these bulls at 18 months and reflects mature size and genetic growth capacity. Weaning weight indicates how big the calf was at birth plus the amount of milk his mother fed him. A year later, at 18 months of age, the bull has been on his own for about a year. Bulls are raised on alfalfa hay after weaning and then pastured on rugged terrain to develop soundness, endurance and natural muscling. This grass-based development ensures bulls are ready to travel, breed efficiently, and remain sound for years.

This sane way of maturing our two-year-old bulls allows you to select a mature bull that can and will travel well in your pasture, and breed more cows in a shorter breeding period. Plus, they will stay sound for more years than feedlot-fattened yearling bulls. Our catalog order is based on the 18-mo. Index of the bulls.

Gridmaker – Built for Performance, Proven for Profit

A ranch favorite for years, Gridmaker continues to leave his mark with elite, proven genetics. This spectacular M6 son is backed by a powerhouse pedigree, out of the great Bluegrass x Dutchess dam, who also produced the renowned Weink bull, Big Ben. Gridmaker does it all—calving ease, top-tier carcass traits, and outstanding growth. He ranks in the Top 1% for Carcass Weight and Rib Eye and Top 2% for Marbling, ensuring premium-quality beef with muscle and added weaning weight. His deep, thick, and stout calves consistently stand out, making him a go-to sire for serious cattlemen. Many of our top-performing bulls in this sale are out of Gridmaker daughters, proving his lasting influence. Even the Multi-Trait Leading sire, New Standard, is out of a Gridmaker dam. If you want to top the Sale Grid with high-marbling, high-performing calves, Gridmaker is the bull to get it done!

Patriot Primed – A Legacy in the Making

Take a look at this powerhouse herd sire—he’s built on a foundation of greatness. Sired by the legendary Patriot, one of the most influential bulls in Charolais history, this bull carries a pedigree packed with performance. Patriot sold for \$105,000 in 2015 and has sired thousands of top-tier commercial and registered progeny. His dam, Brenda 8034, is equally iconic, commanding \$50,000 at 12 years old, proving her lasting impact on the breed. This bull’s ET flush mate, Patriot 9458, topped the LT sale at \$80,000, and other herd sire brothers, like LT Tioga, have been among the most sought-after genetics in the industry. Now, here’s your chance to own the next generation of greatness. Patriot’s sons are solid in every trait for an investment in the future of your herd.

Mountain Man – Power, Performance and Precision

Mountain Man stands out with his classy build, powerful muscle, and smooth athletic movement. His 70-lb. birth weight (-3.8) and 836-lb. weaning weight make him the perfect fit for our program, excelling in both calving ease and performance. Note the wide butts, big nuts and extra gentle dispositions of his sons. Built for the toughest terrain, he covers ground effortlessly, ensuring every cow gets bred. He is the perfect kind to send to the “Mountain” to cover both sides and the top. His elite EPDs rank in the Top 10% of the breed, now proven in his soggy, high-performing calves out of 3-year-old dams. From calving to carcass, Mountain Man delivers. This true Rushmore genetics powerhouse, has earned his place in the front pasture!

Milestone 9561 Polled

Milestone – Proven Power and Carcass Excellence
 As the lead bull in the 2016 Denver Grand Champion Pen of 3, Milestone turned heads with his wide, deep-muscling and unmatched carcass traits. Selling for \$125,000 for half interest, he posted a REA of 21.66 (Ratio 144)—a true game-changer in Charolais genetics. His sons have topped sales across the U.S. and Canada, including Magnum 9805 and Milestone 9561, both featured in this sale. They bring added length, width, and heavier loins, delivering high-yielding carcasses and fast-growing calves. Milestone offspring are known for their vigor at birth, fast gains, and gentle dispositions—making them a top choice for performance-driven herds.

Power Bingo – Decades of Proven Performance

Over 50 years ago, **Bingo** impressed me as the ultimate All-Around Herd Sire to build our breeding program around, and he remains the #1 Bull for Total Breeding Value on the Conception to Consumer Test after thousands of bulls of all breeds have been tested. Decades of selective breeding have led to Power Bingo our true “Power Bull” that delivers both calving ease for our heifers, and top-tier performance competing with calves from mature cows. Bingo Line is known for short gestation and easy calving, making it ideal for second-calf heifers. His dam is a genetic masterpiece, put together perfectly. Bingo influence runs deep in this sale – many of our top bulls are out of those favorite Bingo mothers. Be sure to look through all the “Power” bulls for easy calving with powerful performance. Note that Lot 8 is sired by Power Bingo!

Mountain Network – Strength, Structure, and Legacy

Gentle is a trait we like in the Mountain Man bulls, but their business end is what cattle buyers love – Butts, Guts and Nuts. This bull is built for a rugged breeding assignment. Mountain Network combines powerful genetics, structural soundness, and top-tier performance. Like the mountains that stand the test of time, he offers calving ease, superior growth, and unmatched carcass quality, making him a cornerstone for any breeding program. Connected to greatness, built for the future, Mountain Man does it all.

Magnum Distance – Power That Goes the Extra Mile

Here is a real stud with Magnum statistics from pedigree to performance, with eye appeal to impress. Look at the hip on this square-built stud. Built for endurance and performance, Magnum Distance combines explosive growth, rugged durability, and elite carcass quality. With added feed efficiency, his progeny are designed to go the distance – whether on the range, in the feedlot, or on the rail. When it comes to long-term profitability and genetic excellence, Magnum Distance will lead the way.

Free Ledger – Balanced, Powerful, and Profitable

Here is a class favorite from the start that shows “The Look” plus the numbers to fit any prominent herd. Strength, efficiency, and genetic value – Free Ledger is a bull that will keep your accounting books in the black. With calving ease, impressive growth, and top-tier carcass merit, he delivers the kind of predictable, profitable performance that discriminating cattlemen demand. When it comes to stacking the books with success and profit, Free Ledger definitely will add value.

Power Maker – Strength, Performance & Profitability

A record first in 57 years – a first calf heifer produced a Top 8 Front pen bull. Power Bingo has proven his easy calving plus performance-leading genes for years. Take a serious look at this bull that checks all of the boxes. Designed to add muscle, growth, and efficiency to any herd, Power Maker lives up to his name. With calving ease, superior weaning weights, and elite carcass quality, he will sire calves that thrive in the pasture then dominate in the feedlot. When it comes to building a powerful, curve-bending and profitable program, Power Maker carries decades of our planned genetics to build your program for success.

TERMS AND CONDITIONS OF SALE

BIDDING: Each animal on which there are two or more bids will be sold to the highest bidder.

TERMS: Terms are cash settlement and must be made after completion of sale unless prior arrangements are made and notarized. Checks are accepted and should be made payable to: **Valley View Charolais Ranch, Inc.** The right of property shall not pass and the release of cattle shall not be made until settlement is made and funds have cleared.

DISPUTES: The auctioneer will settle any disputes as to bids by declaring the bids void and reselling the animals in question.

HANDLING: All animals will be maintained prior to their sale at the risk of the cosigner. As their sale is effected, all animals will be maintained at the purchaser's risk. Insurance will be available upon request from agents attending the sale or ask sale clerks. Insurance is always recommended on all purchases.

BREEDERS GUARANTEE: All bulls have passed a breeding soundness and semen evaluation prior to sale. We provide a breeding season (the 90-day period immediately following turn out) guarantee on all bulls to be sound, fertile, and a reproductive breeder throughout his first breeding season. This guarantee is not an insurance or mortality policy but is a guarantee on functional fertility and soundness. It is not a substitute or replacement for poor management. We strongly recommend obtaining insurance at the time of purchase. Buyers assume all risks for running bulls together or management decisions outside genetic control. For guarantee to apply, we ask that you or your veterinarian contact us as

soon as a condition is observed and before the animal is disposed. We will work with you to determine whether to return the bull or sell him for slaughter. We will attempt to provide a suitable replacement. If one is not provided of equal or greater value, we will issue a sale credit to be used at a future sale for full purchase price less salvage value of the bull.

ANNOUNCEMENT: Announcements from the auction box take precedence over printed matter in this catalog or in other ads.

HEALTH: All animals will be cleared for health and have clearance for interstate or international shipment.

DELIVERY: Delivery is only guaranteed to central terminals such as stockyards in each area.

CONTRACTS: The above terms and guarantee constitute a contract between the buyer and the seller of each animal sold.

LIABILITIES: All persons who attend the sale do so at their own risk, and the owner and sales representatives assume no liability, legal or otherwise, for any accident which may occur.

ABSENTEE BIDS: Mail, email, or telephone bids may be made directly to Valley View Charolais Ranch, or to a representative field-man, or order-buyer representative of your choice. Bids need to be submitted to the Sale Management in plenty of time prior to the sale and will be handled strictly confidentially. Satisfaction is

guaranteed on every bull upon delivery, so absentee buyers can feel completely confident in making a purchase sight-unseen. Each year many bulls are sold sight-unseen to buyers that are unable to attend the sale.

YEARLING BULLS TRAILED TO PASTURE
